<b>Announcement Number:</b> 20-383
<b>Position:</b> QA Chief Inspector ACC
<b>Brief Description of Duties:</b> Serves as the Office of Primary Responsibility (OPR) for wing maintenance policy, advising supervisors and employees on both general policy and specific maintenance matters. Makes decisions and recommendations on technical concerns presented by supervisors. Utilizes a comprehensive knowledge and ability to interpret Air Force Instructions, Technical Orders, engineering drawings, product specifications, Air Force Occupational and Health (AFOSH) and environmental standards, public law, and locally developed policy. Evaluates and assesses complex systems, subsystems, integrated systems/subsystems, or components for conformance to applicable technical data, engineering drawings, standards and specifications. Evaluates, conducts reviews, activity inspections and management compliance of all maintenance activities to include the logistics maintenance support functional areas such as production, programs and mobility, maintenance training, plans, scheduling and documentation and data base management as directed by the Maintenance Group Commander. Identifies production problems, excessive overtime, discipline, housekeeping and technical discrepancies and attempts to identify the underlying cause for the deficiencies. Establishes and develops performance checklists and metrics in coordination with the Quality Assurance Supervisor. Develops local operating instructions to supplement regulations and manuals of higher echelons in the area of aircraft and aircraft systems quality assurance. Maintenance Standardization Evaluation Program (MSEP): Administers, evaluates, and coordinates a comprehensive quality assurance, maintenance standardization, and inspection program for all areas of the maintenance organization, all maintenance disciplines, job series and Air Force Specialty Codes (AFSCs). Evaluates the quality of maintenance accomplished in the maintenance organization and performs the necessary quality functions to execute the MSEP, designed to provide management an objective sampling of both the quality of equipment and the proficiency of maintenance personnel. Ensures the maintenance organization meets its responsibility for air-worthy aircraft and component quality for a broad and complex production workload, e.g., highly advanced aircraft, aircraft systems, avionics systems, electronic equipment, aircraft structures, composites, life safety systems, armament, munitions, and other areas of similar complexity. Participates in a review of the organization's quality plans, procedures and practices to assure adequacy and compliance to local and higher-level directives. Executes the evaluation program and accumulates data using Inspection and Evaluation techniques such as Task Evaluations, Quality Verification Inspections, Special Inspections, Personnel Evaluations and Management Inspections. Evaluates the quality of in-process and after-the-fact maintenance and ensures prescribed technical and management procedures are followed. Serves as the subject matter expert for critical assessment programs such as; Unit Self Inspections, Maintenance Standardization, Operational Readiness and Unit Compliance Inspections. Responsible for the development and maintenance of organizational level checklists. Ensures metrics are established and monitored to assess key result areas for successful mission accomplishment including, but not limited to, items where non-compliance would affect system reliability or result in serious injury, loss of life, excessive cost, or litigation. Performs other duties as assigned.
